Steel plate news

US domestic plate prices flat in sluggish market

By Melissa VanDervort - Wednesday 17 July

Domestic plate prices in the US were unchanged on Tuesday July 16, with market participants reporting persistently slow demand amid rumors of a forthcoming plate price reduction at domestic mills.

Fastmarkets' weekly price assessment for steel cut-to-length plate carbon grade, fob mill US was \$51 per hundredweight (\$1,020 per short ton) on Tuesday, flat week on week after going up by 0.99% on July 9 from \$50.50 per cwt.

Inputs were collected in a range of \$49-54 per cwt, representing deals, offers and assessments.

The domestic plate market remains spotty, with sources reporting continued weak demand and muted trading activity at domestic mills.

Sources anticipate that the plate market will remain sluggish, with some market participants expecting the slowness of the summer season to persist before a possible uptick in demand in the fall, while others anticipate a muted market for the remainder of the year.

"Demand is slow, and I'm not predicting any rebound until the end of September — and then only if interest rates go down," a distributor said.

"Demand is still spotty at best, and we expect it to continue through this year," a second distributor said.

Some sources expect there to be another domestic plate price decrease in the near term, following Nucor's announcement of a price reduction of \$125 per short ton on July 1.

"Demand is sub-par, not dead but not where things need to be — and I think we have another plate decrease coming before the market bottoms," a third distributor said. "Time will tell, but the market changes quickly — this one seems to maybe have the balance of 2024 in limbo."

Lead times remain at three to four weeks.

Emirates Steel signs MoU with Eversendai for supplying steel beams to Saudi Arabia’s Neom gigaproject

By Serife Durmus - Wednesday 17 July

Emirates Steel, part of Emirates Steel Arkan Group of the United Arab Emirates, signed a memorandum of understanding (MoU) with Eversendai, a Malaysia-headquartered structural steel contractor, Emirates Steel said on Wednesday July 17.

The MoU is for supplying steel beams to the Trojena Ski Village project in Neom, Saudi Arabia’s gigaproject.

“Emirates Steel will supply premium steel beams renowned for their sustainability, regionally record-setting low carbon emissions, and exceptional

durability for the construction of the Neom Trojena Ski Village,” Emirates Steel said in a statement.

Emirates Steel has a capacity of 3.5 million tonnes per year of crude steel. It produces rebar, wire rod, heavy sections and steel sheet. The company has taken numerous steps toward reducing its carbon footprint.

Neom is one of the major projects of Saudi Arabia, whose Vision 2030 includes ambitious plans to diversify away from oil and into metals.

Steelmakers in Saudi Arabia are preparing for a demand boost from construction gigaprojects, Fastmarkets reported.

No details on how many tonnes of steel beams will be used in Trojena Ski Village were available by the time of publication.
