Cold-rolled coil news

China's NPI prices down on weak stainless steel consumption

By Dylan Duan - Tuesday 19 September

Sluggish stainless steel demand in China led to a softening of prices for the raw material nickel pig iron (NPI) in the week to Friday September 15, sources told Fastmarkets.

Fastmarkets' weekly price assessments for nickel pig iron, high-grade NPI content 10-15%, spot, ddp China, and nickel pig iron, high-grade NPI content 10-15%, contract, ddp China, were 1,170-1,190 yuan (\$161-164) per nickel unit on September 15, both down by 10 yuan per nickel unit from 1,180-1,200 yuan per nickel unit on September 8.

Deals were heard at 1,160, 1,180 and 1,190 yuan per nickel unit. Market participants saw 1,160 yuan per nickel unit as too low and less achievable because such a price put most NPI producers in the red.

NPI prices in China have experienced volatility in recent weeks; prices fell on September 1 to put an end to a six-week streak of gains, before climbing to a multi-month high of 1,200 yuan per nickel unit on September 8.

The prospect of higher stainless steel consumption during the peak season traditionally seen in September and October has not yet been realized, leading to a dip in stainless steel prices, according to sources.

Fastmarkets' price assessment for stainless steel cold-rolled coil 2mm grade 304 domestic, ex-whs China, was 15,300-15,500 yuan per tonne on September 13, down by 100-200 yuan per tonne from 15,500-15,600 yuan per tonne on September 6.

This weakness in the stainless steel market has put downward pressure on upstream NPI prices, sources noted.

At the same time, nickel ore prices in China were stable in the past week due to muted activity amid low availability, according to sources.

"Supply from the Philippines for September has been sold out, and the market is now waiting for October offers," an ore trader based in eastern China said.

Fastmarkets' weekly price assessment for laterite ore with 1.5% Ni content, cif China, was \$65-67 per tonne on September 15, unchanged from September 8.

And Fastmarkets' weekly price assessment for nickel ore 1.8% basis 15-20% Fe water content: 30-35% Si:Mg ratio<2 lot size 50,000 tonnes, cif China, was \$94-96 per tonne on September 15, unchanged from September 8.
